
ParsatPortal Documentation

Release 04/10/2019

Anthony Njogu

Dec 02, 2019

Contents:

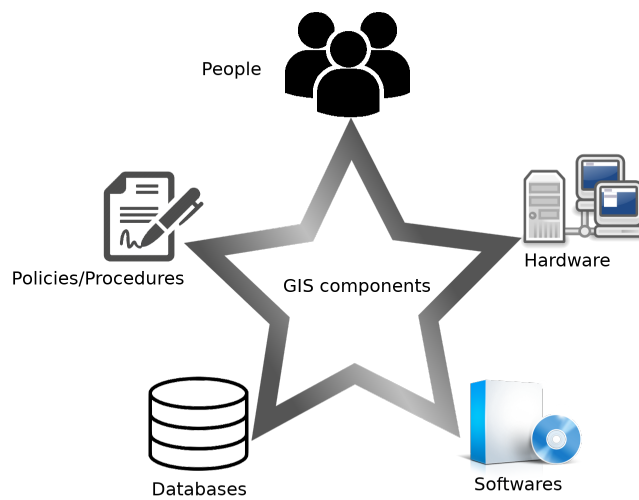

1	Background information	3
2	Introduction to Parsat Portal	5
3	Development Process	7
4	technologies	9
4.1	Deployment Process	9
5	Hosting	11
6	Translation	13
6.1	Parsat Portal Features	13
7	User Accounts and registration	15
8	Layers	17
9	Maps	19
10	Documents	21
10.1	Indices and tables	21

This document aims to provide background information on Geographical information System in regards to the Parsat Portal. The document will also explain the development process, technologies used to develop the portal and the deployment process.

CHAPTER 1

Background information

The parsat portal is an open source web portal platform that allows/facilitates the creation, sharing and the collaborative use of geospatial data. The Parsat portal brings together GIS components to a single platform as shown below:

CHAPTER 2
